**Your capable partner**

# New Ford Ranger

## **Tough and capable**

The 2019 New Ranger is here. It's tough, capable and ready to work. With a striking new design, formidable range of engines, and smarter state-of-the-art technology and safety, Europe's best-selling pick-up\* just got even better.

\*Based on latest available data from the end of June 2018 for the 20 European main markets where Ford is represented through National Sales Companies. The Euro 20 markets are: Austria, Belgium, Britain, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Netherlands, Norway, Poland, Portugal, Spain, Romania, Sweden and Switzerland.

*Model shown is a Double Cab Wildtrak in Sabre Orange metallic body colour (option).*

## Designed around you

Sophistication and craftsmanship come together beautifully in the new Ford Ranger. No matter your destination or travelling companions, its upgraded interior will reward you with SUV levels of luxury and style.

In Wildtrak (shown), the sculpted, supportive seats are partially trimmed in leather and feature an embossed Wildtrak logo, while the 8-way power-adjustable driver's seat helps to keep you sitting comfortably.

New Ranger's thoughtful design offers a wealth of advanced features and technologies, and extends to the new FordPass Connect on-board modem\* and Ford SYNC 3 with 8" colour touchscreen and navigation\* to help guide you through even the toughest working day.

\*Availability varies according to series.

Model shown is a Double Cab Wildtrak in Mettle in Ebony/Journey Grain Leather in Ebony (standard).

# Ready for any challenge

If you want a job done right, let the new Ford Ranger do it. Offering an outstanding combination of four-wheel drive capability, impressive power and traction, partnered with up to 3,500 kg maximum towing capacity, the new Ranger is so capable you'll have to remind yourself that you are actually pulling a fully laden trailer. The new model retains its exceptional wading capability - new Ranger is designed to drive through water up to 800 mm deep - and can mean the difference between you reaching your destination or not.

Note Always consult the Owner's Manual before off-road driving. Follow all laws and drive on designated off-road trails and recreation areas. Care is required when driving through water and speed levels must be reduced accordingly. When a trailer is attached, it is important that it has adequate mass to ensure road traction on all wheels.

Model shown is a Regular Cab XL in Diffused Silver metallic body colour (option).

# Raptor, the ultimate Ranger

The sensational new Ford Ranger Raptor is the toughest and highest performing Ranger ever. Developed by Ford Performance for the true off-road enthusiast, it combines high-speed performance with confident, surefooted capability.

Ranger Raptor is powered by a new 2.0L Ford EcoBlue BI-TURBO diesel engine. Developing 213 PS (157 kW) and a mighty 500 Nm of torque, it drives Raptor's four-wheel drive system via a new 10-speed automatic transmission to ensure it is always in the right gear at the right time.

Built to withstand high-impact off-road events, its unique, super-strong reinforced chassis frame uses high-strength, low-alloy steel to endure the punishment delivered by the most unforgiving environment.

Race-bred off-road FOX Pro suspension is designed to tackle fearsome terrain at high speed, smoothing out jumps and ruts while leaving you in complete control and comfort.

*Model shown is a Double Cab Raptor in Ford Performance Blue metallic body colour (option).*

# Take control

The commanding new Ranger Raptor puts you securely in the driving seat. Never before will you have felt so involved, so in control. Every aspect of the interior points to a powerful fusion of sportiness and top-level comfort.

The bolstered front sports seats are specially designed for off-road high-speed support, with technical-suede materials for enhanced grip. Exclusive blue stitching and leather accents feature throughout. Even the perforated leather steering wheel is specially designed with an on-centre marker and Raptor logo, and is equipped with racing-style magnesium paddle shifters for manual gear selection override.

Raptor also features a new Terrain Management System with six selectable drive modes that allow you to optimise its performance to tackle a wide range of terrain and driving conditions.

From now on, you will view every road and every drive from an entirely new perspective.

*Model shown is a Ranger Raptor with 10-speed automatic transmission (standard).*

# Impressive towing capability

When it comes to towing heavy loads, new Ranger really comes into its own. With a gross payload of over 1 tonne, and 3,500 kg towing capability\*, you can take on the biggest tasks and tow the bulkiest loads. Further confidence comes from Ranger's Trailer Sway Control<sup>®1)</sup> system that is designed to detect 'snaking' or trailer sway and reduce your vehicle's speed to help make towing more controlled. The system slows the vehicle down by applying the brakes and reducing the engine's torque if needed. (Standard, but activated with optional Ford trailer tow attachment)

\*Raptor payload 620 kg, towing capability 2,500 kg.  
<sup>®</sup>Uses sensors.  
<sup>1)</sup>Safety feature.

# Thinking ahead

New Ranger's smart technologies are designed to make every drive easier and safer. Pre-Collision Assist<sup>02)</sup> with Pedestrian Detection monitors your proximity to other vehicles and pedestrians – even in the dark – and can alert you to a potential collision. If you don't respond to the system's warning signals, Active Braking<sup>02)</sup> pre-charges the braking system for maximum effectiveness when you brake. If the system determines a collision is imminent, Active Braking can automatically apply the brakes to help reduce the severity of, and in some cases eliminate, frontal collisions. (Option on Limited and Wildtrak and part of the Adaptive Cruise Control system)

<sup>0)</sup>Uses sensors.  
<sup>2)</sup>Driver assistance feature.

Model shown is a Double Cab Limited in Copper Red in metallic body colour (option).

# Wherever the road takes you

Ford Ranger has a long-established reputation as one of the most capable pick-ups in its class. With its four-wheel drive system with Roll Stability Control and Traction Control - in addition to an electronic locking rear differential - the versatile and sure-footed new Ranger is perfect for a tough week at work, followed by an adventurous weekend off-road.

## 10-speed automatic transmission

A new, class-leading, 10-speed automatic transmission ensures you are always in the right gear. (Standard on Raptor and available as an option on Limited and Wildtrak with either the 170 PS or the 213 PS Ford EcoBlue engine)

## Electronic shift-on-the-fly

Change from two-wheel drive to four-wheel drive - and back again - at the flick of a switch when you're on the move.

Model shown is a Double Cab Wildtrak in Moondust Silver metallic body colour (option).

# Advanced features to ease your working day

New Ranger is available with an even greater range of safety and driver assistance features to help make your day both safer and easier. Whether you are working hard or playing hard, you can depend on New Ranger to extend a helping hand.

### Rear-view camera with Trailer Hitch Assist

Select reverse and the view to the rear of your Ranger vehicle is displayed in the Multi-Functional Display screen. Marker lines overlaid on the camera image indicate where your vehicle is heading. (Standard on Limited and above)

### Hill Start Assist<sup>2)</sup>

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, so is ideal for towing and pulling heavy loads. (Standard)

<sup>1)</sup>Uses sensors.

<sup>2)</sup>Driver assistance feature.

Model shown is a Double Cab XLT in Moondust Silver metallic body colour (option).

# Forward-thinking technology

The new Ford Ranger introduces a wider range of advanced features than any Ford pick-up before. Innovative technologies are supported by a forward-facing camera and sensors that can monitor the area around your vehicle and scan the road ahead, to help you and those around you. When you come to park your new Ranger, Active Park Assist can identify a suitable parking space, and automatically steer your vehicle in or out of a parallel space while you control the pedals and gears. (Option)

## Electronic Stability Control (ESC)<sup>(1)</sup>

Senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. Traction Control<sup>(2)</sup> eliminates excessive wheelspin and provides the best possible grip by constantly monitoring and adjusting the torque delivered to individual wheels. (Standard)

## Pedestrian Detection<sup>(2)</sup>

Pedestrian Detection can monitor your proximity to other vehicles and pedestrians – even in the dark - and can alert you to a potential collision.

<sup>(1)</sup>Uses sensors.

<sup>(2)</sup>Safety feature.

<sup>(3)</sup>Driver assistance feature.

Model shown is a Double Cab Wildtrak in Sabre Orange metallic body colour (option).

## Meet your phone's new best friend

### Ford SYNC 3

Ford SYNC 3 integrates seamlessly with your smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation - all via the 8" touchscreen or through remarkably simple voice commands. Map updates help to keep you on track and on time, and are complimentary for a limited period following vehicle registration.

### SYNC 3 features

- Manage your phone, music, apps and navigation with simple voice commands
- Hear your text messages read aloud for you
- Emergency Assistance<sup>†</sup> helps occupants place an emergency call to provide emergency services with the vehicle location in their respective language
- Control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you navigate your smartphone through the SYNC 3 home screen, as if it were your handset
- Colour touchscreen supports multi-touch 'swipe' and 'pinch-to-zoom' gestures, and lets you arrange application icons and background displays just as you would on your tablet or smartphone

Access additional features via your smartphone with the **FordPass App**.

- Select points of interest along your route. FordPass will send these locations to your SYNC 3 Navigation when you connect through AppLink
- Search for refuelling points by brand or fuel grade, and compare pricing
- Search available parking spaces, check costs, opening hours and ratings

**Please note:** Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check official Apple CarPlay and Android Auto websites for the latest information.

<sup>†</sup>Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

## Effortless connectivity

For the first time ever, you and your Ford can stay seamlessly connected wherever you are. That's because the FordPass Connect modem and the FordPass App, together unlock a range of features designed to make every journey easier.

**FordPass Connect\*** can help save you both time and hassle, as well as give you peace of mind.

- Live Traffic\*\* delivers regular traffic information directly to your SYNC 3 Navigation system. The technology then adjusts your recommended route based on the traffic conditions, helping you to arrive more relaxed and on time
- On-board Wi-Fi\*\*\* - receive up to 4G Wi-Fi for a maximum of ten devices so you and your passengers can enjoy the same connectivity on the move as you would at home

**FordPass App** when paired with your smartphone it makes FordPass Connect even more powerful, allowing you to access a host of features.

- Use your phone to double-check your vehicle is locked, or allow someone to access your vehicle when you're elsewhere
- Monitor your fuel level, mileage and tyre pressures, all via your phone
- Find your way back to your parked vehicle on a map
- Receive over 150 Vehicle Health Alerts directly to your smartphone

\*FordPass Connect is a standard feature on Limited, Wildtrak and Ranger Raptor, and an optional extra on XL and XLT. The on-board modem will be connected at the time of vehicle delivery. You may choose to opt in/out of certain data sharing. The technology will be made available in selected markets in 2018, with the remaining markets following through 2019.

\*\*Live Traffic access is complimentary for the first 2 years following the registration of a new Ford featuring SYNC 3 with navigation; thereafter a licence fee is payable.

\*\*\*Wi-Fi hotspot (up to 4G LTE) includes a complimentary wireless data trial for a limited time only that begins at time of activation. Afterwards, data bundles can be purchased from Vodafone. Please refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, Ford vehicles must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.

# Remarkable Technologies

## Adaptive Cruise Control

Set your desired speed and Adaptive Cruise Control will maintain a pre-set distance from the vehicle in front. If the sensors detect traffic slowing ahead, your vehicle automatically slows down. When traffic ahead is cleared, your vehicle will return back to your pre-set cruising speed. (Option on Limited, Wildtrak and Raptor)

## Ford Power starter button

The Ford KeyFree System allows you to lock and unlock the doors and tailgate, and start the engine without having to get the keys out of your pocket or bag. The passive sensor inside the car can detect you approaching from a 1.2-metre radius. (Standard on Limited, Wildtrak and Raptor)

## Traffic Sign Recognition

Designed to automatically read standard format road-speed signs and display the last posted speed limit in the driver's instrument cluster. (Standard on Limited, Wildtrak and Raptor)

## Parking distance sensors

Front and rear parking distance sensors are designed to assist you when parking with an audible warning. Activated at speeds below 5 mph, sensors at the front and rear of the vehicle detect obstacles and provide an audible warning when the vehicle nears an obstruction. (Standard on Limited and Wildtrak)

## Active Park Assist

Helps you park into parallel parking spaces. Once activated, it automatically steers you in while you operate the pedals. And it can even steer you out of a parallel parking space. (Option)

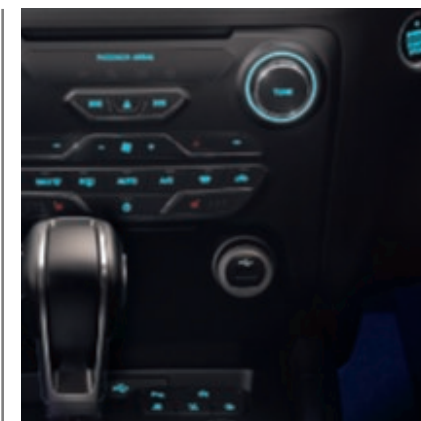

## Lane-Keeping System

Lane-Keeping System (Lane-Keeping Alert and Lane-Keeping Aid) uses a forward-looking camera to detect if you're unintentionally drifting out of lane. Lane-Keeping Alert then warns you by vibrating the steering wheel and displaying a visual warning. If you're slow to react or don't respond, Lane-Keeping Aid can provide steering torque assistance to help guide you back into your lane. (Standard on Limited, Wildtrak and Raptor)

## Power converter

Clever additional touches also provide useful support to your business, such as a 230-volt power socket - invaluable when you need to charge a media device or work tool on the road.

## Dual-zone Electronic Automatic Temperature Control (DEATC) air conditioning

Ranger's DEATC air conditioning system can be adjusted separately for the driver and front passenger, with up to 4°C variation from side to side. (Standard on Limited, Wildtrak and Raptor, option on XLT)

# Models overview

## Choose the right Ranger for you.

Available in a range of uniquely individual series and bodystyles, whatever your preference there is a new Ford Ranger that's right for you.

**XL**

Tough and stylish new Ranger XL and XLT series combine a confident design with rugged, hard-working capability.

**XLT**

**Limited**

New Ranger's luxury models deliver superior levels of sophistication and comfort, with premium materials, additional technologies and unique styling elements.

**Wildtrak**

**Raptor**

The bold new Ranger Raptor is the toughest and highest performing version ever built - a true desert racer and an extreme lifestyle off-roader.

# XL

## Key exterior features

- 16" steel wheels
- Body colour front bumper
- Electrically-operated and heated door mirrors
- Emergency Brake Assist
- Intelligent Speed Assist/Traffic Sign Recognition
- Lane-Keeping System
- Electronic Stability Control (ESC)
- Intermittent variable windscreen wipers
- Ford Easy Fuel capless refuelling system
- Under-run bar
- Rear mudflaps
- EasyLift tailgate
- Non-locking wheel nuts
- Black moulded grille
- Black door handles
- Manual tailgate lock
- Load rest
- High-mounted stop light with integrated load-box illumination

## Key interior features

- Auto Start-Stop
- Quickclear heated windscreen
- Manual air conditioning
- Cruise control
- Radio with Bluetooth®, USB and AUX points
- Electronic shift-on-the-fly (4x4)
- Electrically-operated front windows with one-shot driver's window
- 6-way adjustable driver's seat with lumbar support
- Second power point in instrument panel
- Intelligent Speed Assist
- Lane-Keeping System
- Electric power-assisted steering
- Speed limiter

# Personalise

## Roller shutter

Constructed from ultra-strong extruded aluminium, the roller shutter features a high-quality dual action locking mechanism that completely secures the load area, offering outstanding protection for your tools, equipment or valuables. (Standard on Ranger Raptor, option and accessory)

## Crossbars, for roller shutter, lockable

Aerodynamically-shaped aluminium profile, for all attachments, such as bike carriers and ski racks, etc. Only in conjunction with roller shutter. (Standard on Ranger Raptor and accessory)

## Thule® roof base carrier

Roof carrier is the base for various roof transportation attachments. Roof carrier can be extended with an additional bar to increase stability. (Accessory)

## Tonneau cover loadbox system

A robust awning type tonneau cover mounted on aluminum rail frame. Protects tools and equipment held in the cargo area from rain and dust. Offers multiple fixing points for load securing and attachment of accessories. (Option and accessory)

## ClimAir® wind deflectors

Allow fresh air to enter the vehicle while driving with the front and rear windows open, even during light rain or snow. (Accessory)

## All-weather floor mats

The tray-style all-weather floor mats with the Ranger nameplate are tailor-made to fit perfectly and protect against dirt and damp. The driver's mat is securely fixed directly onto the vehicle's floor to help prevent it from slipping. (Option and/or accessory)

## Undershields

Tough, rust resistant aluminum undershields designed to protect against accidental damage during heavy-duty use. Easily removed for oil changes and routine servicing. Available for engine and transmission, as well as fuel tank. (Option and accessory)

## Brink® tow bar

For extra transport capability, the fixed tow bar can tow up to 3,500 kg, depending on engine. Shown with tow bar wiring kit. (Accessory)

## Mountain Top Industries® soft tonneau cover

Helps protect equipment and valuables from rain and dust. Easy opening and closing with a steel tonneau bow to assist water run-off. (Option and accessory)

## Hard tonneau cover system

This easy to install lockable hard cover system provides additional load space security for any valuables you need to carry. (Option and accessory)

## Hard top, with or without windows

For Double Cab models only, this tough and lockable cover is painted in body colour. (Option and accessory on Double Cab XL, XLT and Limited)\*

# Keep your business moving.

## Ford Service

### Discover the valuable benefits of a Ford Service.

Designed to keep you on the road and your running costs low, a Ford Service is delivered by the experts and available exclusively through our dealer network.

## Features of Ford Service:

- Genuine Ford parts quality
- Ford-trained technicians
- Speedy and accurate Ford diagnostics
- Free Video Check
- Electronic Vehicle Health Check (eCheck)
- Collection and delivery\*\*
- Interim checks for optimum vehicle performance
- Unscheduled repairs
- Priority treatment for urgent repairs
- Free Pan-European Roadside Assistance

Efficiency, accuracy and convenience are at the heart of the Ford service promise. So, whether it's servicing, maintenance or repair you need, be sure to come and see us.

For more information and to find your nearest participating Ford Service centre, visit the aftersales support section at [www.ford.ie](http://www.ford.ie)

## Commercial Vehicle Finance

When it comes to financing your Ford Commercial Vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products. Ford Credit provides a range of finance products for your vehicle as a business user. For more information about the finance products provided by Ford Credit visit [www.ford.ie](http://www.ford.ie)

The credit provider of these products is Bank of Ireland Leasing Limited, trading as Ford Credit. The FORD and FORD CREDIT trademarks are owned by the Ford Motor Company and its affiliates are used under license.

Lending criteria and terms and conditions apply. Applicants must be aged 18 or over. The information is for illustrative purposes only and does not constitute an offer.

Warning: You may have to pay charges if you repay early, in full or in part, a fixed rate credit facility.

## FORD PROTECT

### Extend your warranty up to 7 years with Ford Protect.

Extend your standard 2-year warranty and enjoy worry-free motoring for many years to come. Ford Protect provides a range of key benefits including:

- High flexibility in duration and mileage
- Attractive annual fees
- Protection on trips abroad
- Inflation proof: all increases in repair costs are covered
- Prolonged lifespan of your Ford vehicle
- Protects your vehicle resale value

\*\*Collection and delivery takes place on appointment and within a reasonable travelling time (maybe at an additional cost – please consult your service advisor). We even wash your vehicle so that it looks its best.

# Get the most from your new Ford

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Transit Centre can provide professional advice on important specification aspects, and help to find the right vehicle for your budget and business needs.

The Ford Ranger is designed to carry cargo – and lots of it.

Choosing a new vehicle is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining load box size are relatively simple, others, such as calculating payload are more complex.

## Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

**GVM** is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and crew (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

**Kerb mass** is the weight of a standard-specification XL Series vehicle, including fluids and fuel tank 90% full, but without the driver, crew or cargo.

**Payload** is the difference between the two.

**Gross vehicle mass** minus **kerb mass** = **payload**

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

## Driver and crew

We calculate the weight of the driver and crew based on the industry-standard weight of 75 kg/person. Remember that the driver and crew are not included in the kerb mass figure, so when a driver or crew boards the vehicle, its payload will be reduced accordingly.

## Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

Your Transit Centre will be able to tell you what features can add or reduce your vehicle's kerb mass and by how much.

## Series

All kerb masses quoted in this brochure are for standard-specification XL Series models, unless otherwise stated. Higher Series models will generally weigh more than lower Series due to the increased level of features and equipment.

## Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

## Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to carry cargo at, or close to, the vehicle's maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

## Configure your Pick Up to suit your job

Ford Commercial Vehicles are available with a wide range of standard and optional features. Your Transit Centre can help you ensure that you specify the right vehicle features for your specific business needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

**Note** Technical information for vehicle converters can be found online via the Body and Equipment Mounting Manual @etis.ford.com go to >information >>vehicle conversions.

## Weights and loads

	Max Payload Gross <sup>o</sup>	Front Axle Plated Mass	Rear Axle Plated Mass	Gross Vehicle Mass (kg)	Kerbweight (kg) <sup>•</sup>	Axle Ratio	Max. Trailer Weight (Unbraked)	Max. Trailer Weight (Braked)	Max. GTM (kg)

2.0L EcoBlue 213 PS (157 kW) – 10 speed automatic – Raptor only	620	1550	1850	3130	2510	3,73	750	2500	5350

<sup>o</sup>**Payload Gross** = Gross vehicle mass, less kerbweight. **GVM** = Gross vehicle mass. The total permissible all-up weight of a rigid vehicle – i.e. with body, payload, ancillaries, fuel, oil, water, driver and crew. **\*Kerbweight** = The weight of the complete vehicle and all equipment including fuel and water, but without the payload, driver or any crew. All kerb masses quoted in this brochure are subject to manufacturing tolerances and are for Base models with minimum equipment. XLT, Limited and Wildtrak models will have greater kerb masses and, therefore, lower payloads due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. **Note:** All data in this table is dependent on the actual specification of the vehicle and the market in which that vehicle is available. Contact your local Ford Dealer for more information.

## Next steps

**For full features and specifications,** download the digital ebrochure or view the interactive brochure to benefit from the full immersive experience of your chosen Ford model. Please download them from: [www.ford.ie](http://www.ford.ie)

**test drive**  
Visit your Ford Commercial Vehicle Dealer and test drive the Ford Ranger for yourself. Find your local Ford Commercial Vehicle Dealer: [www.ford.ie](http://www.ford.ie)

**build**  
Build and price your new Ford Ranger to your exact specification and see how it looks at [www.ford.ie](http://www.ford.ie)

**contact**  
[www.ford.ie](http://www.ford.ie)

**own**  
When you drive away in your new vehicle, we're with you all the way. Ford has a large authorised service network to help you keep your vehicle in the best condition. And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your vehicle back to its pre-accident condition and on the road as quickly as possible.

**finance**  
When it comes to financing your vehicle, Ford Credit's size and expertise means they're well placed to provide you with a wide range of finance products. Ford Credit provides a range of finance products for your vehicle whether you are a private or business user.

The credit provider of these products is Bank of Ireland Leasing Ltd, trading as Ford Credit. The FORD and FORD CREDIT trademarks are owned by Ford Motor Company and are used under licence. For more information about the finance products provided by Ford Credit visit [www.ford.ie](http://www.ford.ie)

**FordPass** is a new platform that will empower you to rethink the way you move. Finds parking locations nearby, contains vehicle and finance details, dealer information and a host of useful guides. Live Traffic access is free for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

**Illustrations, descriptions and specifications.** This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. **★** The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are instead covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
