FT = Full Time

The declared Fuel/Energy Consumption CO2 Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behavior as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range, Co2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which contains data for all new passenger car models is available at any point of sale free of charge.

Technical Data

BODYSTYLE	MARKETING LEVEL	ENGINE	TRANSMISSION	FDR	EMISSION	FUEL	DRIVE	WLTP Fuel (Mpg)		WLTP Fuel (l/100 km)		WLTP Overall		
								Fuel Low	Fuel High	Fuel Low	Fuel High	CO2 (g/km) ¹	FUEL (l/100 km) ₁	MPG
DOUBLE CAB	RAPTOR	2.0L EcoBlue 205PS	10-speed automatic	3.73	STAGE 6.2	Diesel	4WD FT	22.2	30.7	12.7	9.2	278.0	10.6	26.6
DOUBLE CAB	RAPTOR	3.0L EcoBoost V6 292PS	10-speed automatic	4.27	STAGE 6.2	Petrol	4WD FT	15.1	23.7	18.7	11.9	315.0	13.8	20.5

The fuel consumption you achieve in real life conditions and CO2 produced will depend upon a number of factors including options and accessories fitted, variations in weather, driving styles and vehicles load. The declared Fuel/Energy Consumption CO2 Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the **fuel efficiency of a car, driving behavior as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO2 emissions and electric range, CO2 is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO2 emissions which** contains data for all new passenger car models is available at any point of sale free of charge. A guide on fuel economy and CO2 emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under www.seai.ie.

The test used to establish fuel consumption and CO2 figures has changed to deliver results that are more representative of real driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption and CO2 figures shown are derived from the new WLTP test. This will produce more accurate figures which most likely will be greater than those arrived at using the NEDC test. Please be mindful of this in making comparisons between vehicles where some manufacturers may still display the old NEDC figures. It should be noted that vehicle registration tax (VRT) and where applicable motor tax is not based on these WLTP figures in 2020, these figures are for information purposes only.

Understanding fuel data. The table shows the fuel consumption (WLTP) and CO2 emissions (WLTP) for each available engine when fitted on a standard specification Ranger (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuels consumption and CO2 emissions. Please speak to your Ford Dealer for more information.

OTHER PRICING CONSIDERATIONS

Customer Order Price Protection

Ford's Price Protection Plan means that the price you pay is the same as the price on your order as long as you are prepared to accept delivery within three months, and in any event, as soon as your vehicle is available. Your Dealer has full details of the plan. Ford Motor Company Ltd is not liable for changes in price caused by Government changes in tax rates or changes in other applicable legislation.

VAT

VAT is shown calculated at 23%. The total price of a vehicle, including factory fitted options and accessories fitted by the Ford Dealer, will be subject to VAT on retail sale.

Price Changes

This price list outlines Ford's Recommended On The Road prices and Recommended Retail prices. Please contact your Ford Dealer for final sale prices. This price list is effective from 10th Feb 2023, and supercedes all previous price lists. The recommended prices in the publication were true and accurate at the time of printing. You should, however, check details with your Dealer as there may have been changes to Ford's recommended prices in view of Ford's policy of continuous development. Ford reserves its right to change its recommended prices at any time. Change to government legislation or tax changes could result in a change to Ford's published prices.

ILLUSTRATIONS, DESCRIPTIONS AND SPECIFICATIONS

The product information in this publication was correct at the time of going to print. However, Ford's policy is one of continuous product development. The right is reserved to change specifications and colours of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability.

Some images portrayed are of a pre-production model and/or are computer generated, therefore the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional e.g. metallic paint.

Please also note some driver assistance features and safety features described in this publication are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
