THE MAZDA3

A graceful combination of maximum precision and artful design, the Mazda3 is a testament to our commitment to Japanese aesthetics. Capturing movement even at a standstill, it is pure artistry in motion. Available in two distinct body options – a dynamic hatchback and a refined sedan – the Mazda3 is a true work of art, showcasing the energetic elegance of our design language called Kodo: “Soul of Motion”. Our latest range of Skyactiv engines features the Mazda M Hybrid system, which helps to produce less CO₂ emissions at no cost of performance. With your choice of the e-Skyactiv G engine and revolutionary e-Skyactiv X engine, you’ll enjoy sharp responsiveness and spirited performance all while achieving impressive fuel economy. On the road, its engaging driving feel will win over even the most demanding drivers. Together with the perfectly crafted premium interior and the latest safety and connectivity features –you’ll experience a driving experience that will awaken your senses and move your spirit. Now with Amazon Alexa onboard, you can ask Alexa to play music, get directions, find parking, and more – all while keeping your hands on the wheel and eyes on the road.

CRAFTED IN JAPAN

ADVANCED SAFETY TECHNOLOGY

ADAPTIVE LED HEADLIGHTS

Mazda's Adaptive LED Headlights provide the ultimate in headlight technology, lighting up the road ahead as if it were daytime and allowing anybody to enjoy safe and stress-free driving at any time. The system increases visibility at night to help drivers stay vigilant by combining four technologies: Wide-range Low Beams which light up a wider area at low speeds, Marking light which brightly illuminates pedestrians that may collide with the vehicle, Highway mode which helps you see further when travelling at speed, and Glare-free High Beams which automatically dim part of the illuminated area to avoid dazzling other drivers.

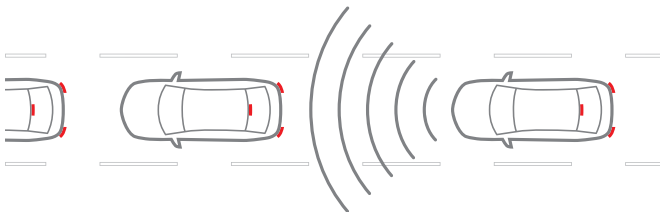

(Optional on all grades as part of the Driver Assistance pack)

MAZDA RADAR CRUISE CONTROL

To activate, the driver sets a maximum speed (just as with cruise control) and size of the gap to maintain. The radar watches for traffic ahead and once the system senses a vehicle in front, the car will slow down and speed up automatically maintaining the drivers pre-set distance. The system also features 'Stop & Go' function, meaning the vehicle will automatically accelerate and brake in start/stop traffic with minimal input from the driver.

(Optional on all grades as part of the Driver Assistance pack)

SMART BRAKE SUPPORT – FRONT WITH TURN-ACROSS TRAFFIC

SBS alerts the driver of a possible collision using the warning indications in the display, and a warning sound if the front radar sensor and Forward Sensing Camera determine that there is the possibility of a collision with a vehicle, pedestrian, or a bicycle ahead. Furthermore, if a collision is unavoidable, the automatic brake control is performed to reduce damage in the event of a collision. In addition, when the driver depresses the brake pedal, the brakes are applied firmly and quickly to assist. The Turn-Across Traffic function is designed to assist the driver in avoiding a collision (or reducing the impact) with a vehicle approaching in the opposite direction when making a turn at a junction.

(Standard across the range)

MAZDA SERVICES

MAZDA WARRANTY

At Mazda, quality is a promise that we live up to. That's why we're extending our New Vehicle Warranty to 6 years – or 150,000 kilometres. Knowing you're fully protected against the unexpected, you'll be able to focus on the driving pleasure even more.

MAZDA FINANCE - PCP FINANCE WITH MAZDA CHOICES

Owning a Mazda is now even easier with Mazda Choices. Purchasing a new car in the current market environment can be complex but at Mazda, we appreciate that everyone's requirements are different. That's why we have introduced Mazda Choices which offers you a tailored solution to meet your individual needs and most importantly, takes the stress out of owning your new Mazda
